EXPERIENCE

Tiger Advisory – Frontend Developer Intern – Parsippany, NJ

Jun 2025 – Sep 2025

- Built 15+ reusable React.js components using hooks, props, and state management, optimizing frontend modularity and performance within a cross-functional Agile team.
- Integrated Supabase real-time authentication into the frontend, collaborating closely with backend developers to connect React UI with server-side APIs for 1,000+ users.
- Participated in daily stand-ups, sprint planning, and code reviews, following Agile SDLC practices and Git-based version control workflows.
- Leveraged AI-native tooling and prompt engineering to accelerate component development, increasing overall delivery speed by 30%.

Parthvitech Innovatives LLP – Flutter Developer – Vadodara, India May

2023 – Dec 2023

- Developed and deployed a full mobile insurance application with a team of 5, building scalable UI components and integrating RESTful APIs that reduced latency by 53%.
- Collaborated with design, QA, and backend teams within an Agile workflow to deliver all client requirements on schedule, streamlining the development cycle by 22%.
- Wrote and maintained clean, documented code following coding standards, contributing to improved release stability and a 35% increase in user engagement.

Digikentro – Web Developer Intern – Vadodara, India

Jul 2022 – Sep 2022

- Developed responsive UIs and integrated REST APIs to enhance application performance and user retention across multiple web platforms.
- Diagnosed and resolved 85% of critical bugs through systematic debugging, improving release quality and overall user experience.
- Worked in a 4-member Agile team to build and ship features on schedule, participating in stand-ups and actively seeking feedback from senior developers.

SKILLS

Frontend: React.js, JavaScript (ES6+), HTML5, CSS3, Tailwind CSS, Responsive Design, React Router, Context API

Backend: Node.js, Express.js, REST APIs, JWT Authentication, Error Handling

Databases: MongoDB, PostgreSQL, DynamoDB, Supabase, Firebase

Tools & DevOps: Git, GitHub, CI/CD (GitHub Actions), Postman, Agile/Scrum, AWS EC2/S3

Other Languages: Python, Java, Dart (Flutter), TypeScript, C++

EDUCATION

Pace University – Master of Science in Computer Science – New York, USA

May 2026

CGPA: 3.8 / 4.0

PROJECTS

FixFlow — Full Stack Maintenance Management System

- Built an end-to-end MERN stack application (MongoDB, Express.js, React.js, Node.js) featuring RESTful APIs, JWT authentication, and a CI/CD pipeline via GitHub Actions — deployed on AWS EC2.

StudyBuddy — AI-Powered Learning Platform

- Developed a full-stack educational platform using React.js, Node.js, and Gemini AI, implementing JWT-based auth, React Context API for state management, and PDF processing with automated quiz generation.

Prescripto — Doctor Appointment Booking Portal

- Engineered a React.js frontend with React Router for navigation and Context API for state management; built responsive, component-based UI allowing users to browse, filter, and book appointments.
